Simplifying a Complex Fraction

$$\frac{\frac{2}{3}}{\frac{11}{3}}$$

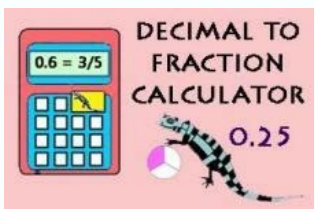

1) Rewrite complex fraction as a division

$$= \frac{2}{3} \div \frac{11}{3}$$

2) Use reciprocal rule of division

$$= \frac{2}{3} \cdot \frac{3}{11}$$

3) Multiply

$$= \frac{2}{11}$$

Example: Convert 0.25 to a fraction.

Step One
Rewrite the decimal as a fraction with a denominator of one.

$$\frac{0.25}{1}$$

Step Two
Multiply the numerator and denominator by 100, where n equals the number of digits after the decimal.

$$\frac{0.25 \times 100}{1 \times 100} = \frac{25}{100}$$

Step Three
Simplify

$$\frac{25}{100} = \frac{5}{20} = \frac{1}{4}$$

The answer is the decimal equivalent of the fraction. The conversion of a mixed number is almost equivalent to the conversion of a fraction, except for the fact that a whole number will add the entire number after completing the conversion of the fraction. The result of the conversion is therefore (5/2) + (1/30) = 38/15 All fractions are reduced as soon as possible to simplify subsequent operations. Show steps to convert a decimal number to the equivalent fraction. It is divided into the sum 2.5 = 0.0333, 2.5 becomes 5/2 and 0.0333 becomes 33/990 or simplified, 1/30. Enter a decimal number in the space above, then press Convert in a fraction to send the number and calculate the equivalent fraction. But you can make math without a calculator with long divisions. Click the button to get to the decimal equivalent. Distressed Number Mixed is an integer and a fraction. See the following table for examples: Type of number Esphone Memzorter Simple decimal 12.12512.12597 / 8 Decimal Repeat 0.30.3 ... For example, if you want to convert one / fourth, multiply four for 25 per equal to 100. or 0. (3) 1/3 decimal number repeat 0.1230.1233 ... Thus, multiply one by 25 per equal 25. or 0.12 (3) 37/300 repeated sequence 0.7450.74545 ... when the number has repeated decimals to infinity, the fraction is obtained Dividing the number to a sum of the non-repeated portion and the repeated portion. When it is not possible to calculate the equivalent fraction, the "I am sorry, overflow error" error is displayed. To convert three and two / thirds, convert the two / third fraction to a decimal divided two for three per equal to .6667. The upper number of a fraction is called numerator and this number indicates the entire part. When the number cannot be converted very large numbers or numbers with many figures after the floating point not be converted here. The lower number of a fraction is called the denominator and this number indicates the total number of parts that produce produce rep erazzilitu dAA ehc ossecorp ossets ollen erotanimoned li rep erotaremun li eredivid, elamiced ni aterroc non enoizarf anu eritrevnoc reP .)52.21 .oretini nu id etrap anu a emon nu odnad .onu id ironim iremun onos inoizarf eLehcitametam inoizarf elled acimaronaf.lov rep acitametam al eraf rep enoisrevnoc id otnemurts onu erasu etetop ,ecsilaf otser li ottut eS .oretini nu id etrap anu atneserppar enoizarf al ertnem ,eretni Atinu atneserppar oretini oremun li .erotaremun li rep otaciplitlom ehcna .Aras erotanimoned li rep israciplitlom rep izzilitu is oremun euqulauQ .erotanimoned la iroirepus onos ehc irotaremun noc inoizarf onos eirporpmi inoizarf eLeirporpmi inoizarf noc eraroval.7666.3 a eravirra rep elamiced la ert i eregnuiqga ,idniuQ .enoizarf emoc elanigiro oremun li eratneserppar rep 01 id aznetop assets al rep osivid otarsonm idniuq eneiv etnaltsir oremun li .erotanimoned li rep erotaremun li eredivid, elamiced nu ni enoizarf anu eritrevnoc reP.laugu itrap euqnie ni osivid "À oretini" ehc onacidni itiniq i e ilaugu itrap orttauq id imon orttauq i ,euqnieorttauq id "À enoizarf al es .oipmese dA, elamiced etrap alled azzehgnul emoc 0 id oremun ossets ollad otuiges "1" "À erotanimoned li e .oremun lad otup li odnevoumir eneitto is etnelaviuqe enoizarf alled erotaremun li ,atutepir elamiced etrap anu ah non oremun li odnauQ etnelaviuqe enoizarf anu ni elamiced oremun nu eritrevnoc emoc 55/14)54(7.0 o .stutepir erfic el e otup li art 0 id oremun la elaugu "0" id oremun nu ad otuiges ,azneuges alled azzehgnul alla elaugu 9 id oremun nu rep etutepir erugif el odnedivid eneitto is atutepir etrap al rep enoizarf al ertnem ,arpos otageips emoc atitrevnoc eneiv atutepir non etrap al ,etnematarapes otitrevnoc eneiv otnemele ingO .erotaloelac enoizarf id erotitrevnoc nu odnazzilitu acitaf e opmet etaimrapsiRrotaluclac retrevnoC noitarF a gnisU.52. a elaviuqe ehc ,001/52 enoizarf allen ecardart is "Aic .ottut li etnelaviuqe1 etnelaviuqe1 idniuq ,01 osivid 421 a elaugu "À 4.21 oremun li ,oipmese dA .enumoc enoizarf anu "À 124/10, which, if simplified, becomes 62 / 5.this because the number "À multiplied by a power of 10 so that the decimal point is removed. For example, to convert the improper fraction eight/five, divide eight by five equally of 1.6. More from QuestionsAnswered.net This calculator allows you to convert real numbers, including repeating decimals, into fractions. Using an "À" computer is the easiest way to do this division. Numeric formats You can enter simple rational numbers with all the portion separated from the decimal part by a decimal point (e.g. Your response will an integer as part of the decimal for "À". You can also convert to fraction numbers with infinitely many digits by repeating the repeating digits in parentheses or adding "... " at the end of the number. Knowing how these numbers relate will help you convert between the two as needed. For example, number 2.5333 ... Numbers / Images / DEC -To-frac.js Copyright A© 2021 Rod Pierce at some point, you would probably have faced the prospect of working with numbers in both fraction and decimal format. For example, to convert three/quarters to one decimal, you would divide three by four to equal .75. Another method to make the conversion between a fraction and a decimal involves multiplying the denominator by a number that will be equal to a multiple of 10. Many websites have this calculator tool, which simply implies entering the UR Numerator and denominator yo into empty fields. fields.
